IT Professional | Web Developer

Eager to leverage my 5 years of industry experience and proficiency in IT operations and data analysis to transition into a role as an Entry-Level Web Developer. Excited to contribute my skills in developing user-facing web applications and components using PHP/Laravel, JavaScript while maintaining a commitment to teamwork and delivering high-quality products.

WORK EXPERIENCE

Accenture Inc. | Cebu City, Philippines | April 2020 - Present

Network & Services Operation Associate

- Managed and supported mission-critical LAN product delivery cores to ensure capacity, availability, and security standards.
- Responded to alerts and incidents in a timely manner, diagnosing and resolving technical issues to minimize downtime.
- Collaborated with cross-functional teams to ensure seamless integration of network solutions with other IT systems.
- Performed routine maintenance tasks such as upgrades, patches, and configuration changes to keep the network environment up-to-date and secure.
- Implemented and enforced network security policies, ensuring compliance with industry standards and best practices.
- Contributed to the documentation of network configurations, processes, and troubleshooting procedures.
- Assisted in capacity planning and performance tuning to optimize network resources and meet business requirements.
- Participated in on-call rotations to provide support outside of regular business hours as needed.

Accenture Inc. | Cebu City, Philippines | October 2017 – March 2020

Data Analyst

- Handled full lifecycle of US healthcare transactions, ensuring accuracy and regulatory compliance.
- Entered and verified critical data into systems, preserving information integrity.
- Documented transactions as per guidelines, maintaining compliance standards.
- Checked processed transactions for errors, implementing corrections.
- Coordinated with teams, clients for seamless transaction processing and issue resolution.
- Kept updated on healthcare transaction regulations, ensuring adherence.
- Identified process inefficiencies, proposed improvements for better efficiency.
- Generated precise transaction reports, highlighting key metrics and trends.
- Collaborated across functions, fostering positive teamwork, and sharing expertise.
- Stayed updated on healthcare trends and tech for personal growth and team contribution.

Search Engine Optimizer and Web Developer (Internship)

- Collaborated with the design team to convert wireframes and mockups into responsive and visually appealing web interfaces using HTML, CSS, JavaScript, PHP/Laravel.
- Assisted in the development of interactive features, animations, and user interfaces to enhance user engagement and experience.
- Conducted cross-browser and cross-device testing to ensure consistent functionality and appearance across various platforms.
- Participated in code reviews, providing, and receiving feedback to maintain high coding standards and optimize performance.
- Worked closely with the back-end development team to integrate front-end components with server-side logic using APIs.
- Contributed to the optimization of website speed and performance through efficient coding practices and asset optimization.
- Demonstrated a keen eye for detail and user-centric design, ensuring that the final product met both functional and aesthetic requirements.

EDUCATION

BS In Information and Communications Technology

University Of San Carlos | Cebu, Central Visayas, Philippines | April 2017

SEMINARS AND TRAININGS ATTENDED

PCSC and Women in Computing 2017 Attendee

University of San Carlos TC | S.Y. 2016 - 2017

Cisco Networking, CCNA 1 and CCNA 2

University of San Carlos TC | S.Y. 2015 - 2016

PSITE Attendee

University of Southern Philippines Foundation | S.Y. 2015 - 2016
